### ***About OGIS® New York***

The IPAA Oil & Gas Investment Symposium New York (OGIS New York) is a hallmark on the industry calendar and an annual must destination for serious energy investors. There is a distinct advantage for investors participating at OGIS New York, as the unique and focused setting allows for benefits that go beyond the basic company presentation.

### ***About HII Technologies, Inc.***

HII Technologies, Inc. is a Houston, Texas based oilfield Services Company focused on Total Frac Water Management with operations in the Southwest United States. It has two supporting divisions in oilfield power management and safety services. By focusing on the critical service areas of Water, Safety and Power, the Company's bundled services approach has allowed them to become a cutting edge technology provider and cost saving solution to oilfield operators who are looking for ways to improve efficiencies in the current price environment. The Company's frac water management division does business as AES Water Solutions, Hamilton and AquaTex, its onsite oilfield contract safety consultancy does business as AES Safety Services and its mobile oilfield power subsidiary does business as Sage Power Solutions, formerly South Texas Power (STP). HII Technologies' objective is to bring proven technologies to these operating divisions to build a long-term competitive advantage for its stakeholders.
